## Garda Vetting Procedure

Under the National Vetting Bureau (Children and Vulnerable Persons) Act 2012 those who come into contact with children and/or vulnerable adults during the course of their work or activities must undergo Garda Vetting.

As a member of the National Recruitment Federation, Garda Vetting is one of the key services provided to members and the private and public healthcare sector. They are one of the top five providers of this service in the country, processing over 40,000 applications annually.
